STATINTL

1. Headquarters [REDACTED] dated 30 August 1973, "Agency Assistance to U.S. Federal, State and Local Government Components", required all operating officials to report to their respective Deputy Directors, by 21 September 1973, all agreements, arrangements, and practices by their components whereby assistance or support was provided to any government unit (federal, state or local) or to any private organization known to be engaged in activities supporting any such unit.

STATINTL

[REDACTED] was rescinded upon the issuance of [REDACTED] on 25 April 1974; however, it has been determined that the Office of Security never responded to the reporting requirements of the former notice.

2. To establish the necessary data base of Office activities that would have fallen within the purview of [REDACTED] and to obviate the necessity of submitting each instance of current Office assistance to another governmental unit to the Inspector General for review on an item by item basis, the Plans, Programs Branch is developing a consolidated listing of all such Office activities for the Deputy Director for Management and Services.

3. It is requested that you review the activities under your jurisdiction and provide the Chief, Plans, Programs Branch with a detailed report of all administrative, financial, or logistical assistance, as well as operational and intelligence support currently being rendered to other government agencies or to private organizations providing services to such agencies.

Assistance that has been terminated, or will be terminated by 5 August 1974, should not be included, nor should activities specifically exempted by paragraph 7 of [REDACTED] If doubt exists as to whether a particular activity falls within the criteria of paragraph 7, it should be reported. For your guidance, a copy of the reporting format originally prescribed by [REDACTED] is attached and must be followed in detailing each separate activity.
